Make yourself comfortable in your outdoor environment and give it a touch of luxury. Numerous products from the Brunner catalogue, coordinated according to colour and form, enable individual design without having to forego the harmonious interplay of wonderfully harmonized products from different categories. Create your own personal ambience - just like at home!

Enjoy

THE EXPERIENCE

Three special words that have a different meaning to each person reading them. Inspired by the needs of people on the move we've spent decades inventing, re-inventing and optimizing useful equipment for all those who like to spend their leisure time indulging in outdoor activities of all kinds.

This has resulted in a high quality range of products built to fit your needs and ensure satisfaction regardless of place, climate and weather.

It's all about combining design and function creating products that make the everyday outdoor life an overall exciting experience.

NEW OR INNOVATIVE?

INNOVATION INSPIRES AND STIMULATES THE SEARCH FOR THE NEW.

The New that supports man in his very own nature to make life easier, more comfortable and safer. Innovation is the driving force that motivates and inspires this search, filling it with content and cleverness.

The purchase of new equipment always represents an important decision where the factors function, design quality, workmanship and the price / performance ratio must melt together into an ideal mix. This year the Brunner Outdoor Catalogue 2024 again includes a variety of new developments from various product areas. A variety, just waiting to be discovered, used and tastefully combined. Just browse through it or use the convenient online catalogue in order to find exactly the right product with the right price option.

INNOVATIONS

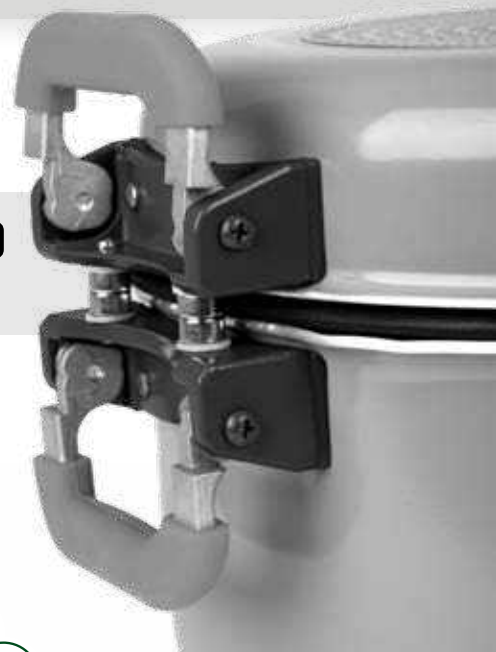

OUR PATENTS

Patents are representative of a company's inventiveness and desire for innovation, and undoubtedly very useful for improving product performance.

Some of our items, such as the Magnetogrip pan sets, which set a new functional standard and offer campers maximum comfort in terms of use, have been patented in various countries in order to protect our experience and knowledge.

MAGNETO GRIP

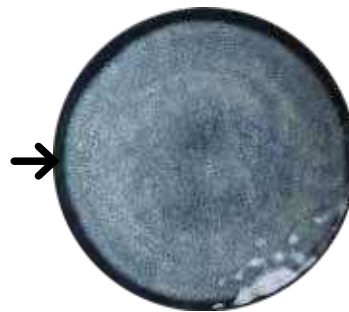

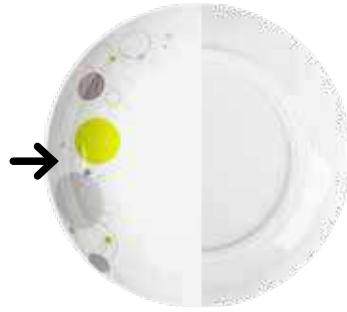

PLASTIC FREE

Brunner Outdoor wants to be at the forefront of efforts towards a cleaner world. This is why we are proud to have initiated a process that will lead to zero commercial packaging made of plastic material within 3-5 years. As well as bringing concrete benefits, this process aims to further raise awareness of the culture of respect for our planet among all outdoor enthusiasts, already particularly sensitive to this subject.

INFO

The LED (Light Emitting Diode) belong to the group of so-called half-conductors and have a very low energy consumption (5-10% of a normal electric bulb), are very resistant and enduring (more than 10 years). The LED light is advantageous for most of the possible applications and more comfortable for the human eyes than the concentrated ray of the traditional electric torches, that are anyway perfect for long distance illumination.

CHAIR COLLECTION

FOLDING OUTDOOR CHAIRS

Our chair range includes a variety of models that have different functions depending on size, weight, pack size or comfort. When choosing a table chair, you should consider a vertical backrest, while a pure outdoor chair must be lightweight with a small pack size. On the other hand a relaxing chairs must have a wider seat and a comfortably reclinable backrest. To facilitate the selection of the right chair, you will find an overview that shows all the important features of Brunner chair models and their ideal use.

CHAIR 4 ALL

ERGONOMIC CONCEPT

WHICH CHAIR SIZE DO YOU NEED?

Do you sit comfortably? The chair size always plays an important role!

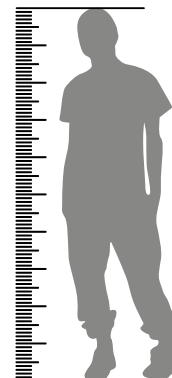

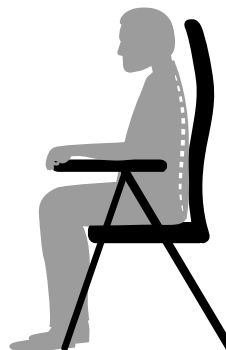

Many of us spend many hours in a sitting position during the day. Whether at work, at home at the dining table or while relaxing: We should take care to sit comfortably, to avoid tension and to increase our well-being.

Basically, you cannot make a general statement about the right seating position. The body size, the body proportions and also the table height play a big role.

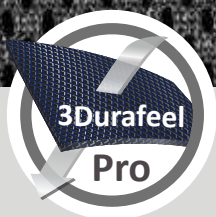

So there are many reasons that make you think about the right chair size. Not only the comfort, the mechanics and the attractive design of your outdoor and camping chair, but also an ergonomic posture should be an important selection criterion.

Thanks to the newly developed sizes, the Aravel / Rebel Pro chair collection certainly offers the right chair for your body size. Very important: The right seat height affects the well-being positive!

Take care that your feet are comfortably resting on the floor and the forearms form a right angle with the upper arm. So the right chair not only has to please, but also really has to be the right thing for you and your body measurements.

originaldesign ➤

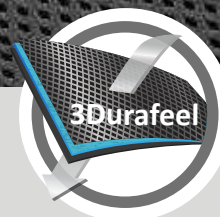

3DURAFEEL PRO

REBEL / ARAVEL VITACHIC

The 3Durafeel Pro cover fabric is a very special fabric used in our Rebel and Aravel chair collections. Thanks to its air permeability and skin-friendliness, it transforms comfort into a wonderful seating experience for relaxing hours outdoors. 3Durafeel Pro also dries amazingly quickly after a light rain and radiates a pleasant feel-good atmosphere on the awning, terrace or balcony. And this reliably for many years.

This is because 3Durafeel Pro is tear and abrasion resistant, breathable, lightfast and dirt repellent. Single-layer construction (special weave).

3DURAFEEL

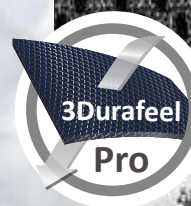

ARAVEL / SKYE

The 3Durafeel cover fabric is a very special fabric used in our Aravel and Skye chair collections. Thanks to its air permeability and skin-friendliness, it transforms comfort into a wonderful seating experience for relaxing hours outdoors. 3Durafeel also dries amazingly quickly after a light rain and radiates a pleasant feel-good atmosphere on the awning, terrace or balcony. And this reliably for many years.

This is because 3Durafeel is tear and abrasion resistant, breathable, lightfast and dirt repellent. 3-layer construction.

The ultimate footrest for maximum comfort and convenience! Our standalone footrest features a sturdy, foldable aluminum frame for easy storage and portability. The practical mesh tray lets you enjoy your favorite snacks or beverages without ever leaving your cozy spot. Say goodbye to uncomfortable positions and hello to blissful relaxation with our practical footrest.

Large stool table with aluminium all-round profile, specially designed for the Rebel standalone legrest.

Comfortable 4 leg high back chair with brand new space saving frame that is the perfect solution for those who do not have ample storage space in their vehicle. Thanks to special joints specially made, it was possible to fold both the rear leg of the chair and the headrest, thus considerably reducing the height of the chair in the closed position. All this while maintaining the characteristics of comfort and elegance typical of all models of the Rebel collection.

FEATURES:

- Frame in special trapezoidal profile in painted aluminum
- 3Durafeel Pro fabric seat and backrest
- Foldable headrest
- Folding rear leg
- Adjustable backrest (5 positions)
- Steel central joint
- High-quality plastic armrests with metal rails
- Ergonomic backrest with integrated lumbar support
- Integrated organizer pocket in the back of the backrest
- Compatible with Rebel series footrests

To offer even more comfort while maintaining very compact packing dimensions, the Raptor, our all-time favourite among folding chairs, has been equipped with a backrest raised by approx. 20 cm. The use of comfortable armrests made of robust plastic also gives the feeling of sitting in a classic 4-legged chair. All other features of this chair series have been maintained.

The new Raptor Compact chair is characterised by its new folding structure that ensures minimum space requirements when folded and stored, without compromising the usual comfort level of the chairs in the Raptor collection. Made with a powder-coated steel frame and a supporting canvas of robust coated polyester fabric.

INFO

THE COT

Cots allow comfortable sleeping in a safe distance from the ground. Especially in bad weather conditions, you are well protected from moisture and humidity. Moreover, you can successfully avoid to get in contact with quite annoying crawling insects. Different cot models offer the possibility to store equipment under the lying surface in order to save space. As it happens with any other piece of equipment, also cots need to be evaluated in many respects. Each of the models in our catalogue offers advantages and disadvantages. Above all, you should consider how the cot will be transported: Some can be dismounted into a very small storage space, others are only foldable, therefore having a larger pack size but usually offering a better sleeping comfort.

TABLE COLLECTION

CHOOSE THE RIGHT TABLE!

A table is really just a shelf with four legs: This is the first thought that comes to mind when people have not yet taken a serious look at outdoor tables. But especially when it comes to tables that are used outdoors, a table is by no means just a table. Numerous differences have to be considered in detail from the point of view of the optimal purpose, the place of use, the assembly system and the packing dimensions.

This automatically raises the question: Which outdoor tables are actually available?

- Classic camping and outdoor tables with fixed or folding tops
- Ultra-light camping and outdoor tables with fixed or folding shelf
- Foldable camping and outdoor tables with rollable tray

Now find the table that suits you best from our wide range of models with different functions, assembly systems, packing dimensions, colours and shapes. Adapted to the basic rules explained above, to your special needs and to your preferred style, it is important to take into account the ambience and the given space conditions when choosing a table.

INFO

ADJUSTAR

LEVELLING SYSTEM

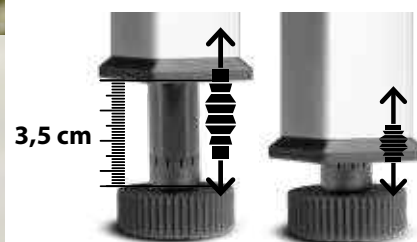

Adjustar is a patented levelling system which allows a very simple height adjustment of support legs by means of a new mechanical method of power transmission.

Thanks to this system, furniture systems with feet can be prevented being crooked. Every camper knows this problem. How laborious and tedious it is to adjust the legs of tables that have to be moved up, down and over frequently, especially on uneven ground.

But Adjustar can also be used on even ground. Especially in outdoor areas, small puddles form on the table tops, which in combination with impurities such as pollen, for example, result in unsightly edges. Thanks to the Adjustar system, it is also possible to simply tilt the tables and let the water drain off.

The new Quadra aluminium table range with rollable top features a new totally new folding frame, which is based on the classic table construction with 4 vertical legs. The gapless table top is connected to the table frame with a special quick-locking mechanism. In contrast to the classic folding tables with an x-frame, the Quadra offers enough leg clearance on all 4 sides. Easy and quick setup. Modern design combined with improved functionality. A carry bag for comfortable transport is included.

8 kg

Large multifunctional camping cabinet with 2 separate zip compartments with 6 internal shelves. The slightly narrower compartment can also be converted into a wardrobe thanks to the dividable shelves and a built-in hanging bar. Very sturdy design with aluminium cross frame and torsion-resistant rectangular profiles. Front and rear walls can be additionally stabilised by a special tensioning device. Wide base plates prevent the cabinet from sinking into soft ground or damaging the tent floor or carpet. A height-adjustable foot allows a perfect level compensation on uneven ground. A gauze window in the rear wall provides internal ventilation for the cabinet.

FEATURES:

- Frame: Aluminium
- Cover: 100% coated polyester fabric
- With bag

POLARYS FREEZE

SINGLE ZONE

New portable single-compartment bivalent fridge/freezer with a modern and compact design. Equipped with a durable shockproof plastic body with high insulating capacity and a digital display for temperature control. Ideal for campers, cars, boats.

ADVANTAGES:

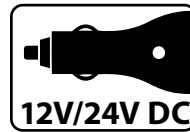

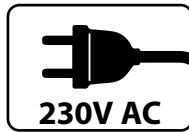

- Spacious, for storing food and drinks for several people
- High cooling speed
- Precise adjustment via digital display
- Modern and functional design
- Wide temperature range
- Lowest attainable temperature: -20°C
- Silent, low consumption

FEATURES:

- Capacity: 30, 40, 50 l (optional)
- Voltage: 12V / 24V (DC), 220V (AC)
- Total input power: 45W
- Technology: LG Compressor

PERFORMANCE:

• Temperature settings	between +20°C to -20°C (deep freezing)
• Refrigerant type	R1234yf
• GWP	1430
• Average energy consumption AC	(EN62552) 0,28 kWh/24h
• Energy consumption 12V DC	(ambient@32°C, indoor@5 °C) 1,29 Ah/h

POLARYS PORTAFREEZE

Portable 12V/230V compressor fridge specially designed to be used in small spaces and to be easily transported with its sturdy folding handle. Ideal for all outdoor activities, also thanks to the possibility of a mobile power supply through the use of a lithium battery (optional). Solid and robust construction with high quality materials. Equipped with the latest generation of compressor that optimises the ratio between energy consumption and cooling performance.

FEATURES:

- Detachable battery (optional) lasting 4-24 hours
- High-quality compressor for high-level cooling performance
- Three-stage battery protection
- DC/AC use (AC with external power supply)
- Durable and shockproof design
- LCD display
- Silent operation
- Foldable carrying handle

The compact Polarys Home mini fridge is the ideal solution for small spaces such as awnings, mobile homes or holiday homes. It has a capacity of 42 litres and offers space for all important food and drinks. The integrated cold storage compartment with 4 litres capacity is ideal for short-term storage of fresh meat and fish. The door shelf offers space for 2-litre bottles and the practical storage rack keeps the interior tidy. The refrigerator has an adjustable temperature (0°/10°) that can be optimally adapted to the ambient temperature. It is classified in climate class N-ST. The refrigerator is pleasantly quiet and has a minimum noise level of 43 dB. It is equipped with an interchangeable door hinge so that it can be integrated into any room. The robust plastic housing ensures a long service life.

The CEE Cable Reel with light is your reliable companion for camping and hobbies. With a generous 15-meter cable length, it ensures flexibility and ease of use. Equipped with an integrated circuit breaker, it guarantees safety and protection. The three Schuko plugs and two USB ports offer convenient charging options for multiple devices. Compact and lightweight, it is perfect for on-the-go adventures. Its dust and splash-proof design ensures durability and longevity, while the reinforced plastic body reinforces its resistance to everyday wear and tear. Don't compromise on quality and functionality - choose the Brunner CEE Cable Reel / Light for an enjoyable and hassle-free camping or hobby experience.

Power inverters for car, boat, RV or alternative energy systems. Modified Sine Wave Power Inverter.

With the Vento Swift, the refrigerator fan has been reinvented. The cabling of the control panel is completely eliminated and a simple connection to the 12V on-board power supply is all that is needed to start the device. The control panel, which is equipped with a battery-operated touch display, allows convenient operation of all fan settings and can be flexibly mounted anywhere in the vehicle.

W8 2.0

The version 2.0 of the popular W8-Gascontrol features the following improvements and enhancements:

- Newly developed cover for weight measuring cells
- Extension of the connecting cables to the battery charging compartment
- Revised W8 app

The electronic device W8 GASCONTROL measures the fill level of gas cylinders and transmits it via Bluetooth to Smartphones or Tablets with Android or iOS technology. Due to its very low height the W8 GASCONTROL can operate continuously in the gas bottle compartment of the vast majority of recreational vehicles.

**COOLS ROOMS
UP TO 25/30 m³**

The new Polarys Twinair split air conditioner is the perfect solution for anyone who wants to enjoy pleasant cooling in their recreational vehicle on hot days and nights. The air conditioner is easy to install and operate and can be used in virtually any vehicle.

As the name suggests, the Polarys Twinair split air conditioner consists of two parts: a condenser and an evaporator. The condenser is located on the outside of the vehicle and the evaporator on the inside. The two parts are connected with a hose. The installation of the air conditioner is simple and can be done in a few minutes. Thanks to modern technology, the Polarys Twinair split air conditioner is very efficient and uses very little electricity. The air conditioner has a cooling capacity of 880W (3000 BTU) or 1460W (5000 BTU) and keeps rooms up to 25/30 m³ cool. This makes it ideal for mobile use in recreational vehicles or mobile homes.

ADVANTAGES:

- Easy installation
- Quiet
- Efficient
- Cools rooms up to 25/30 m³
- Two ventilation levels
- With remote control by app

The delivery includes an aluminium grill plate designed for even heat diffusion, internally coated in ceramic for truly exceptional grill cooking.

MINUWATT

SERIES

The Minuwatt product collection consists of a wide range of electrical appliances with specially reduced power requirements (watts). This allows you to use these appliances without restrictions on all campsites, even those with low electricity supply.

Our Minuwatt collection offers you a wide selection of high-quality appliances, including hotplates, kettles, toasters, heaters and many more.

Each appliance is carefully designed to be energy efficient while still providing optimal performance.

With Minuwatt appliances, you can enjoy your camping vacation to the fullest without worrying about the wattage available. All devices adapt perfectly to the power available at campsites and allow you to enjoy a comfortable and convenient camping experience.

VIDEO

**NO SCREWS FOR
INSTALLATION**

**READY FOR
IMMEDIATE USE**

**EASY
INSTALLATION**

FEATURES:

- Aluminium frame with low weight and high stability
- Fly screen made of weatherproof fibreglass fabric
- High-quality appearance due to modern aluminium profile with rounded edges and lateral brushes
- Assembly without drilling and screwing
- Ready for immediate use
- Suitable for the original Dometic Midi-Heki with crank operation
- Made in EU

Additional fly screen with aluminium frame for the Dometic Midi Heki with crank mechanism.

Prevent the intrusion of dirt and annoying insects with the newly developed FLYNET fly screen. With the FLYNET the protection of your vehicle already starts at roof level and the annoying accumulation of flies, mosquitoes and other pests, but also leaves, tree needles, etc. on the interior fly screen and darkening blind is completely eliminated.

The FLYNET is based on a high-quality aluminium frame. This enables quick, uncomplicated and permanent attachment to the Dometic Midi Heki (with crank operation) without the need for tiresome drilling and/or screwing. The Heki frame remains completely undamaged and is visually enhanced. If you want to remove the FLYNET for cleaning or during the winter break, simply lift it out.

WARRANTY

All original Brunner products are manufactured from high-quality raw materials, which underlie strict material testing. Thanks to our quality controls we can detect and eliminate defects already within the production process. If in spite of that a defect should arise, the company Brunner grants a warranty of 24 months for defects in material and workmanship. The warranty starts from the date of purchase.

NOTE:

The warranty will be refused in the event of incorrect use, external influences or improper handling and storage. A claim can only be made with the retailer from whom the item was purchased and only with a valid receipt clearly showing the date of purchase. The reseller shall take care of the complete warranty processing and contact its upstream supplier or Brunner GmbH directly.

- Errors in colour, size, material and packaging data, as well as technical changes and printing errors excepted.

Attention: Colour deviations from the original are possible due to printing technology.

- Decoration material is not included in the price.
- All dimensions and weights are approximate.
- All texts, images, graphics and logos in this catalogue are subject to copyright and other laws for the protection of intellectual property.
- The reproduction of information or data, such as the use of texts, parts of texts or images, requires the prior consent of Brunner Ltd.
